

Notice About 2023 Tax Rates

Property tax rates in Utah are set by voters.

This notice concerns the 2023 property tax rates. It provides information about how tax rates are set, how they are calculated, and how they are approved. It also provides information about the current tax rates for each of the local governments in the state. In most cases, the voter-approved tax rate is the highest tax rate that can be adopted without holding an election. In each case, these rates are

by dividing the total amount of taxes by the current tax base. The current tax base is the value of all taxable property in the jurisdiction as of January 1, 2022.
